**NOTE 1: This verification is part of the full test report(s) and should be read in conjunction with it.**

This is the result of tests carried out on those samples of the product referred to above which were submitted for testing, in accordance with the specification for the designated standards. The sample(s) of the tested product has been found to comply with the designated standards to the UK Statutory Instrument(s) listed on this verification at the time the tests were carried out.

The manufacturer according to definition by Electrical Equipment (Safety) Regulations 2016 may indicate compliance to said UK Statutory Instrument(s) by signing a UK DoC himself and applying the UKCA marking to products identical to the tested sample(s). In addition, the manufacturer shall file and keep the documentation according to the rules of the applicable UK Statutory Instrument(s) and shall consider changes of the standard(s) if relevant. Additional requirements may be applicable such as additional UK Statutory Instrument(s). The verification does not include an assessment of the manufacturer's production. Conformity of his production with the specimen tested by Eurofins is not the responsibility of Eurofins.

The 'UKCA' marking shall consist in the initials 'UKCA' taking the following form with height of at least 5 mm:

The UKCA marking must be affixed visibly, legibly and indelibly to the equipment. Where this is not possible or warranted because of the nature of the equipment, the UKCA marking must be affixed on the packaging and accompanying documents. In any event, until 31 December 2022, the UKCA marking may be affixed to a label or a document accompanying the equipment.
