Lifting Eye V-120 Suitable for GRABO Plus / PRO

Art Nr.: 11029

Delivery contains: The Lifting Eye V-120 comes with 4x matching spring bolts and shims.

The Lifting Eye V-120 is suitable for the GRABO Plus and PRO. The Lifting Eye V-120 makes it easy to lift materials with your GRABO using an excavator or forklift. Thanks to the 4 attached spring bolts, assembly, without any required tools, is quick and easy. The thoughtful design allows you to lift horizontally as well as vertically.

In addition, the battery of your GRABO can be replaced at any time. Of course, using the lifting eye is also possible with our Rock Seal, Slender Seal and the Brace Seal.

!! Persons should never stand under the load **!!**

T-Lift 120 1 & 2 person handle for GRABO Plus / PRO

Using the T-Lift 120 handle, you can move heavy objects with ease with 1 or 2 people. The great advantage of this tile lifter is that you can lay tiles very precisely from a standing position. Releasing the material from the Grabo can be done with the foot, so you can work quickly. This tile lifter can be used with 2 people, but can also be converted to a 1-person model. ✓ Work quickly, efficiently and safely with the T-lift 120.
